To the Hiring Manager for Fluid Dynamics Research Engineer,

I am a Master of Applied Science graduate in mechanical engineering,
with a research background in computational fluid dynamics and
numerical optimization. Please accept this as my formal application
for the fluid dynamics research engineer position (PM2013-08). I
believe that my skills could make significant contributions to
process flow modelling and design optimization projects within Coanda.
 Attached are copies of my resume, cover letter and transcript.

Sincerely,
Ian Joynes
